Agenda

9:00 am   **Welcome and Introductions**

              Name, Your School/Agency/How are you and your students using RUReady?

9:15 am   **What's New in the RUReady.ND.gov Professional Center and RUReady.ND.gov**

10:00 am   **Patrick Mineer, Golden Path Solutions**

- **Four-Year Rolling Plan in the Compass Profile**
- **Professionals: Updating Your School's Class List in the Compass Console**
- **Work-based Learning**

12:00 pm   **Lunch on Your Own**

1:00 pm   **Work-Based Learning, the Employer Perspective**

Introductions

- **Your Name**

- **Your School/Agency**

- **How are you and your student/clients currently using RUReady.ND.gov**

What's New in RUReady.ND.gov this School Year?

New in the RUReady.ND.gov Professional Center

New view of student portfolios in the Professional Center:

New tabs at the top allow you to easily jump from one section of a student's portfolio to another:

- Career
- High School
- College
- Financial Aid
- Profile
- Milestones
- Journal

Each of the sections has a new fresh look, as well!

New for Students in RUReady.ND.gov

Practice College Application Activity

- Enabling students to practice a college application gives them a good understanding of the types of information that may be asked in an application.
- Students can gather and organize the information prior to completing a real application.

The Practice College Application Activity can be found through:

1. **College Planning**
2. **Get to College**
3. **Practice a College Application**

Lesson plan available in the Professional Center (yellow handout in your packet):

Resources > Lesson Plans > Career and College Readiness Curriculum: Postsecondary Planning > 6. Practice a College Application

Practice College Application Activity (Continued)

Students progress through multiple pages of a sample application, with the option to save completed pages as they go.

New for Students in RUReady.ND.gov

Resume Builder Update

The Resume Builder was updated last school year.

Recently, the activity has been updated to offer the option to upload files from Google Drive.

The list of accepted file types has been expanded to include:

- PPTX
- XLSX

Google Docs, Google Sheets, and Google Slides will all be allowed to be selected by the student. Docs will convert to a .docx; sheets to a .xlsx, and slides to a .pptx (Word Doc, Excel Spreadsheet, and PowerPoint Presentation respectively).

O*Net Career Data Update

The employment, job openings, and outlook data for O*Net Career Profiles has been updated to the latest available data. The revised data is found in the **Money & Outlook** section of each Career Profile.

This is also the data used by the Career Finder when a student searches by Outlook.

*O*Net uses data from the Bureau of Labor Statistics and others to inform its database.*

National Earnings

Average Annual Wage	$148,590
Average Hourly Wage	$71.44
Average Annual Range	$77,340 to $225,920

Note: variations in salaries reflect differences in size of firm, location, level of education and professional credentials.
Where do these numbers come from?

National Employment and Outlook

Outlook	**stable** The employment change from 2022 to 2032 is estimated to be +3%. (The National average for all occupations is +3%)
Job Openings	**very small number** Less than 1000 average annual openings are expected for this occupation between 2022 and 2032. (The National Average for all occupations is 1,670 openings)
Employment	**small occupation** This was a small occupation in the United States, employing 21,400 workers in 2022. (The National average for all occupations is 147,916 workers)
Growth	**Average growth** The need for petroleum engineers to help facilitate oil and gas extraction at existing operations is expected to create some demand for these workers. However, increased use of renewable energy and weaker investments in fossil fuel production may limit job growth over the projections decade.
Industries	Large concentrations of this occupation are found in these industries • Mining, Quarrying, and Oil and Gas Extraction (NAICS210000) (44.9%) • Oil and gas extraction (NAICS211000) (28.8%) • Professional, scientific, and technical services (NAICS540000) (16.8%) • Support Activities for Mining (NAICS213000) (16.1%) • Management of companies and enterprises (NAICS550000) (16%) • Management of companies and enterprises (NAICS551000) (16%) • Architectural, engineering, and related services (NAICS541300) (13.1%) • Engineering services (NAICS541330) (12.5%) • Manufacturing (NAICS31-330) (9%) • Petroleum and coal products manufacturing (NAICS324000) (6.6%)

New Experiences Coming October 7

14

Lavender handout in your packet.

Student Accounts – Connection to More Than One School

While work is still ongoing, we now have the capability for student accounts to be connected to multiple schools' RUReady.ND.gov Professional Center sites.

Significance of This Upgrade

This upgrade is particularly beneficial when students are involved in work-based learning (WBL) through a CTE Center. Instead of professionals at the CTE Centers managing WBL experiences across multiple school sites, they will be able to manage their students' experiences through their CTE Center's RUReady.ND.gov Professional Center.

Next Steps

We need to establish a reliable, consistently available and regularly updated data source for students taking classes at the CTE Centers.

RUReady.ND.gov & the RUReady.ND.gov Professional Center

Maintaining your RUReady.ND.gov Professional Center

SITE ADMINISTRATORS – Review a minimum of annually:

Who has access to your Professional Center site?
Do you have an Assignment and Curriculum set assigned?
Are you using the customized Program of Study?
Are your graduation requirements up to date?
Do you have Milestones assigned? Review the assigned Milestones.

Blue handout in your packet.
Not a site administrator? Share the information with the site administrator for your site.

Need Help?
